

## Latest News

WATLOW appoint Sensemaster as their distributor for their range of heaters, controllers and temperature sensors

### Band & Nozzle Heaters

Extruders, Injection moulding machines, Blown film dies, Other cylinder heating applications.

### Cartridge Heaters

Dies, Platons, Hot plates, Sealings, Fluid heating, Aerospace, Semiconductor, Life sciences, Foodservice equipment.

### Flexible Heaters

Medical equipment, Freeze protection, Battery heating, Factory bonding/subassemblies, Foodservice equipment.

### Tubular & Process Assemblies

Designed for direct immersion in water, viscous materials, oils, solvents, process solutions, molten materials, air and gases .

### Thermocouples & RTDs

Plastic injection, Heat treating, Medical and packaging equipment, Air conditioning and refrigeration.

And we continue to represent:

Erwin Sick

Gems Sensors

Data Track

Baumer electric

EGE Elektronik

Di-soric

Applied Weighing

And we also supply sensors from :-

New Products from:

**di-soric**

di-soric sensor "clamps" convert PNP to NPN and NPN to PNP in the same unit. Simultaneously the NO/NC function can be reversed and the output pulse stretched.

**SICK**

The ICS 100 Intelligent Camera Sensor.....  
*Simple recognition*  
*Simple operation*  
*Simply ingenious*

High Pressure – Low Prices

The **MiniMap** is the next generation of machinery, pump and hydraulic sensors.

WEIGHING APPLICATIONS THAT WORK - PRECISELY  
**APPLIED WEIGHING**

This intelligent load cell junction box monitors individual load cells and indicates fault conditions.
